COOPERATIVE  
EXTENSION PROGRAM

# Kentucky Master Naturalist

## Registration opens Spring/Summer 2019

*HANDS ON ACTIVITIES  
SPEND TIME IN THE FIELD WITH EXPERTS*

This 40-hour (min.) course will provide participants with a solid foundation for serving as part of a community of well-informed citizen volunteers with the goal of advancing education, research, and outreach efforts dedicated to the conservation and management of Kentucky's natural resources areas. Upon successful completion of this course, participants will become a certified Kentucky Master Naturalist (KYMN). During the course, participants will volunteer a minimum of 40 hours with a local organization focused on natural resource conservation and management and will complete a capstone project.

The cost of the extension training is \$250. UK (for-credit) is tuition bearing.

**Topics Covered: Water resources, wildlife, soils, invasive species, aquatic macroinvertebrates, botany, safety & health, geology, ecology, weather & climate, environmental education, citizen science**

**Who:** Those interested in natural resource conservation and management

**When:** Summer/Fall 2019

**Meeting Times:** UK (for-credit) cohort will meet Wednesday and Friday mornings; extension cohort will meet in the evenings (generally Thursday from 6:00 pm – 8:00 pm) and potentially once per month on Saturday (9:00 am – 12:00 pm)

**Where:** Central Kentucky

**Interested? Contact Carmen Agouridis at [carmen.agouridis@uky.edu](mailto:carmen.agouridis@uky.edu) to learn more.**
