

PhD Assistantship Available

Ecology and management of
gnats in forested systems

Clemson University and
The Jones Center at Ichauway

- Evaluate monitoring and management methods for eye gnats in forests
- Describe trophic interactions and community ecology of eye gnats in forested ecosystems.

Requirements:

- BS (MS preferred) in Entomology, Forestry, or related field.
- Excellent oral and written communication skills.
- Previous research experience strongly preferred.

Send your CV plus a letter of interest to Dr. Jess Hartshorn (jhartsh@clemson.edu) and Dr. Kier Klepzig (kier.klepzig@jonesctr.org)
