The National Forests and Grasslands in Texas are looking for a committed, hardworking, highly skilled workforce to suppress wildfires and work in fuels management in six potential duty locations including Lufkin, Ratcliff, Yellowpine, New Waverly, Zavalla, and Decatur, Texas. The fire and aviation management programs are very rewarding and requires talented people working safely as part of a team in a variety of specialized positions including dispatch, engine crews, fire and fuels management, and helitack crews. The Fire Hire program is being implemented to streamline the hiring process for permanent fire positions and provide consistent hiring around the Region and throughout the agency. This hiring process assists the National Forests and Grasslands in the Southern Region to fill vacancies in a more efficient and timely manner.

This outreach is for GS-0462-03 through GS-0462-09 and WG-5716-08 career permanent full-time fire positions. Some of these positions may potentially be eligible to be included in the GS-0456 Wildland Firefighter job series implementation. The vacancy announcements for these positions will be posted on the U.S. Government's official website for employment opportunities, <https://www.usajobs.gov>. These are national vacancy announcements with a specific opening and closing date. The vacancy announcements will be open for applications between August 22 – September 24, 2024. Those who wish to be considered for these positions are highly encouraged to respond to this outreach notice by **September 24, 2024**.

## ABOUT THE FORESTS

The National Forests and Grasslands in Texas includes the Angelina NF, Caddo LBJ Grasslands, Davy Crockett NF, Sabine NF, and Sam Houston NF. The forest units are located in Southeast Texas and the Caddo LBJ Grasslands is located in north central Texas just north of Dallas / Fort Worth. Combined, it is approximately 720,000 acres. A full range of vegetation and recreation management activities on the forest include timber harvest and regeneration activities, TSI, prescribed fire, developed and dispersed recreation, and mineral exploitation. The forest has a very large prescribed fire program burning 150,000 acres per year across the forest and grasslands.

### Angelina / Sabine Ranger District (includes the Angelina and Sabine National Forest)

The Angelina/Sabine Ranger District administers 314,000 acres of the Angelina and Sabine National Forests. The District is located in the "Pineywoods" region of East Texas, an area of gently hilly, densely forested land. The region is rural. The district has an aggressive fuels reduction program with annual prescribed burning accomplishments averaging 70,000 acres per year. Fire suppression load averages around 20 to 40 fires per year. The Fire Management Organization consists of a DFMO, 2 AFMO's, Fuels Tech, Prevention Tech, 4 Equipment Operators, and 8 Firefighters, plus numerous militia personnel.

District Offices are located in Milam and Zavalla, with two workcenters located in Zavalla and Yellowpine (5 miles south of Milam). The Supervisor's Office is located in Lufkin.

### Caddo LBJ National Grasslands

Since the 1930s, Wise, Montague, and Fannin County have been home to a unique natural resource, the Caddo-LBJ National Grasslands (CLBJ). The District hosts a complex plan of work to include 53% of the region's grazing program, a burgeoning oil & gas program, the potential acquisition of a land donation totally nearly 15,000 acres, wildlife habitat improvement projects in partnership with the National Wild Turkey Federation, a National Historic Site, and a very busy recreation program serving over 7-million people within an hour of Caddo-LBJ National Grasslands. The District Office located in Decatur, Texas is approximately 240-miles from the Supervisor's Office in Lufkin, TX. Additionally, the two combined Districts Caddo and LBJ are over 130-miles apart. The CLBJ is approximately 38,000 acres (LBJ National Grassland = 20,300 + acres, Caddo National Grassland = 17,800 + acres). Due to the proximity to the Dallas/Fort Worth metropolis and the small percentage of public lands in Texas, recreation and special uses are exponentially growing and complex programs. On the LBJ National Grassland, hunters can find whitetail deer, Rio Grande turkey, and small game such as rabbits, squirrel, and a few quail. While much of the acreage is open to hunters, families looking for a place to picnic and camp can venture out to one of the area's small lakes and ponds. There is over 75-miles of multiple-use trails. The Caddo National Grassland, located in Fannin County, offers the same recreational opportunities as the LBJ; however, the lakes are much larger in size and the Eastern turkey represented. Paved boat ramps and fishing piers are available from the campground's parking area. There are over 25-miles of multiple-use trails.

### Davy Crockett National Forest

The Davy Crockett National Forest, named for the legendary pioneer, contains more than 160,000 acres of East Texas woodlands, streams, recreation areas, and wildlife habitat. Located in Houston and Trinity Counties, the forest is centrally located within the Neches and Trinity River basins. The Davy Crockett National Forest was proclaimed a National Forest by President Franklin Roosevelt on October 15, 1936.

The District hosts active recreation, archeological, minerals, timber, and fuels treatment programs with emphasis on the former Chief's four threats: fire & fuels, invasive species, loss of open space, and unmanaged recreation.

The Davy Crockett Ranger District office is located near Ratcliff, TX on Highway 7 about one-quarter mile west of FM 227 in Houston County.

### Sam Houston National Forest

The Sam Houston National Forest is one of 4 National Forests and 2 National Grasslands managed by the USDA Forest Service in Texas. Located on the western edge of the piney woods of East Texas, there are 163,030 acres of national forest land in Montgomery, San Jacinto, and Walker Counties. The Sam Houston is designated an Urban National Forest because of its proximity to Houston, Texas. The district manages a very active hazardous fuels program managing fuels in a rapidly expanding and complex urban interface. The district annually prescribe burns 35-40,000 acres per year and has an active suppression program as well. On the west side of the district, national forest surrounds the north end of Lake Conroe, a 22,000-acre reservoir that provides water for Houston and recreation for thousands of visitors each weekend.
